## KENTUCKY UNIFORM POLICE TRAFFIC COLLISION REPORT - NARRATIVE

KSP 74 Revised 1/2000

MASTER FILE # 70410125

INVESTIGATING AGENCY LAWRENCE COUNTY SHERIFF DEPT.

AGENCY ORI NUMBER 0640000

LOCAL CODE

UNIT 3 WAS SLOWED OR POSSIBLY STOPPED JUST SOUTH OF THE INTERSECTION OF KY RT 32 AND KY 2565 WAITING FOR THE NORTH BOUND LANE TO CLEAR TO TURN INTO KENTUCKY FRIED CHICKEN PARKING LOT. UNIT 2 WAS BEHIND UNIT 1 ALSO SLOWED OR STOPPED WAITING ALSO. UNIT 1 WAS PROCEEDING SOUTH BOUND ON RT 2565, AND STRUCK UNIT 2 IN THE REAR, CAUSING A CHAIN REACTION OF WHICH UNIT 2 STRUCK UNIT 3 IN THE REAR WITH THE FRONT OF UNIT 2. ALL VEHICLES INVOLVED CAME TO REST WITHIN A FEW FEET OF THE POINT OF IMPACT, AND WERE ALL THERE AT THE SCENE WHEN OFFICER ARRIVED.

## KENTUCKY UNIFORM POLICE TRAFFIC COLLISION REPORT - NARRATIVE

KSP 74 Revised 1/2000

MASTER FILE # 70486818

INVESTIGATING AGENCY LOUISA POLICE DEPARTMENT

AGENCY ORI NUMBER 0640100

LOCAL CODE

Both units were stopped in traffic at intersection of SR3 and SR32 at the red light preparing to make a right turn onto SR3. As unit 2 was yielding for on coming traffic and was beginning to enter into traffic Unit 1 struck the rear of Unit 2's vehicle in the rear causing little damage. Unit 2 driver was complaining of middle to lower back pain but advised she would go to hospital later if need due to she had her infant children with her. Unit 1 did not advise of any injuries. Both vehicles were drive from scene.

## KENTUCKY UNIFORM POLICE TRAFFIC COLLISION REPORT - NARRATIVE

KSP 74 Revised 1/2000

MASTER FILE # 70491023

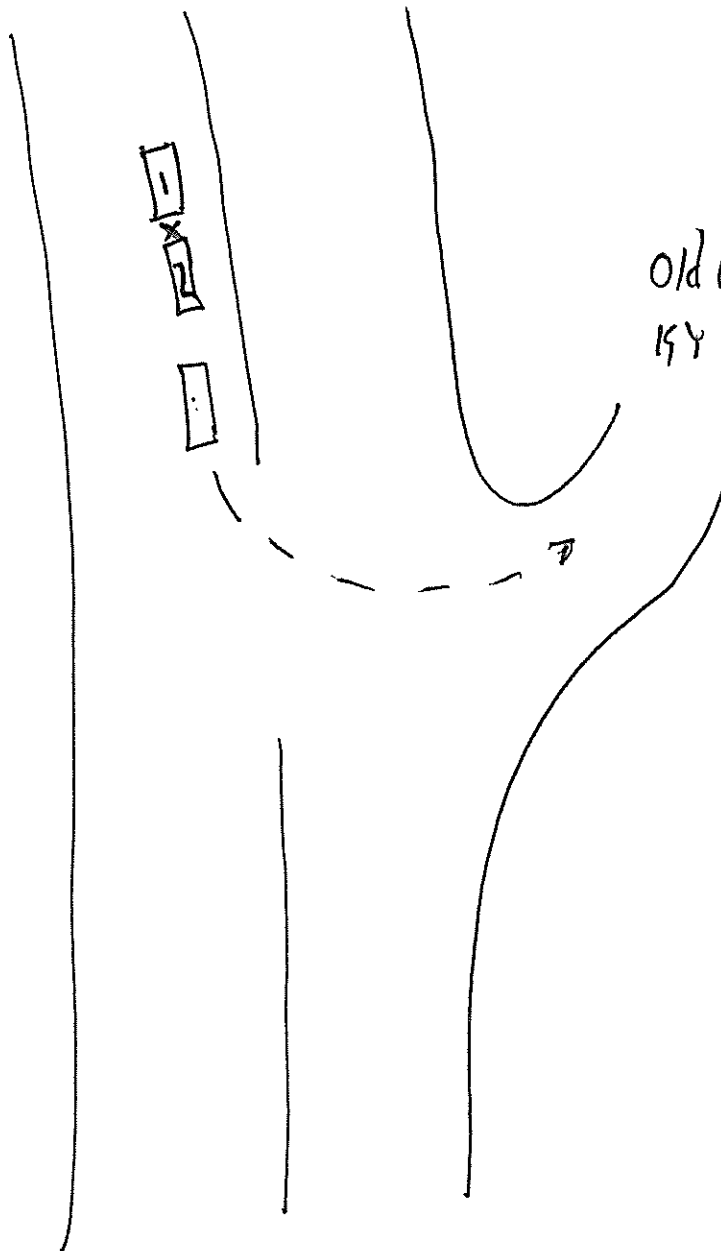

INVESTIGATING AGENCY KY STATE POLICE, POST 14

AGENCY ORI NUMBER KSP1400

LOCAL CODE

Unit 2 was traveling southbound on KY 2565. Unit 1 was also traveling southbound on KY 2565 behind unit 2. Unit 2 was slowing down almost to a stop due to a vehicle ahead of Unit 2 stopped on KY 2565 waiting to make a left turn. Unit 1 did not see Unit 2 slowing down impacting into the rear of Unit 2. Unit 2 was able to remain in service.

## KENTUCKY UNIFORM POLICE TRAFFIC COLLISION REPORT - NARRATIVE

KSP 74 Revised 1/2000

MASTER FILE # 70550552

INVESTIGATING AGENCY LAWRENCE COUNTY SHERIFF DEPT.

AGENCY ORI NUMBER 0640000

LOCAL CODE

Unit 1 at intersection of hwy2565 and rt 32. Unit 2 was traveling south on hwy2565. Operator of unit 1 advised that she turned south on hwy2565 and then was turning left into kentucky fried chicken parking lot. She advised that it appeared to her that unit 1 was far enough away for her to make the turn from rt 32 and then navigate the left turn into KFC parking lot. unit 2 advised that he was traveling south and the traffic light for south bound traffic was green. He advised that unit 1 pulled out from rt 32 and then attempted to turn left into KFC parking lot. Unit 2 struck unit 1 in the left front of the unit 1 vehicle. Damage to unit 2 was in the right front of vehicle. unit 1 was stopped at or close to the point of impact, unit 2 was pulled into the KFC parking lot when officer arrived.

## KENTUCKY UNIFORM POLICE TRAFFIC COLLISION REPORT - NARRATIVE

KSP 74 Revised 1/2000

INVESTIGATING AGENCY		LAWRENCE COUNTY SHERIFF DEPT.		AGENCY ORI NUMBER	0640000	LOCAL CODE
MASTER FILE #				70561801		

Unit 2 was stopped at the red light on HWY 2565 at the KY 32 intersection. Unit 1 struck unit 2 in the rear end. Unit 1's operator advised that he had looked off and thought that unit 2 had started moving and he had let off the brake. He advised that when he realized that unit 2 was not moving it was too late and he struck unit 2 in the rear end. Unit 2's operator advised that he was stopped at the light and unit 1 struck him in the rear end. Unit 1 did not have active insurance policy on it at the time of the accident. This was verified through the insurance company provided.

INVESTIGATING AGENCY LAWRENCE COUNTY SHERIFF DEPT.

AGENCY ORI NUMBER 0640000

LOCAL CODE

Unit 2 was waiting to make a left turn at the carwash, unit 1 stated she looked down for a second and did not see unit 2. Everyone in the crash signed a refusal to be treated or transported to the hospital, Net Care Ambulance Service did respond and got the refusals signed by all three people in the crash. The two people in unit 2 drove themselves to Three Rivers Medical Center.

## KENTUCKY UNIFORM POLICE TRAFFIC COLLISION REPORT - NARRATIVE

KSP 74 Revised 1/2000

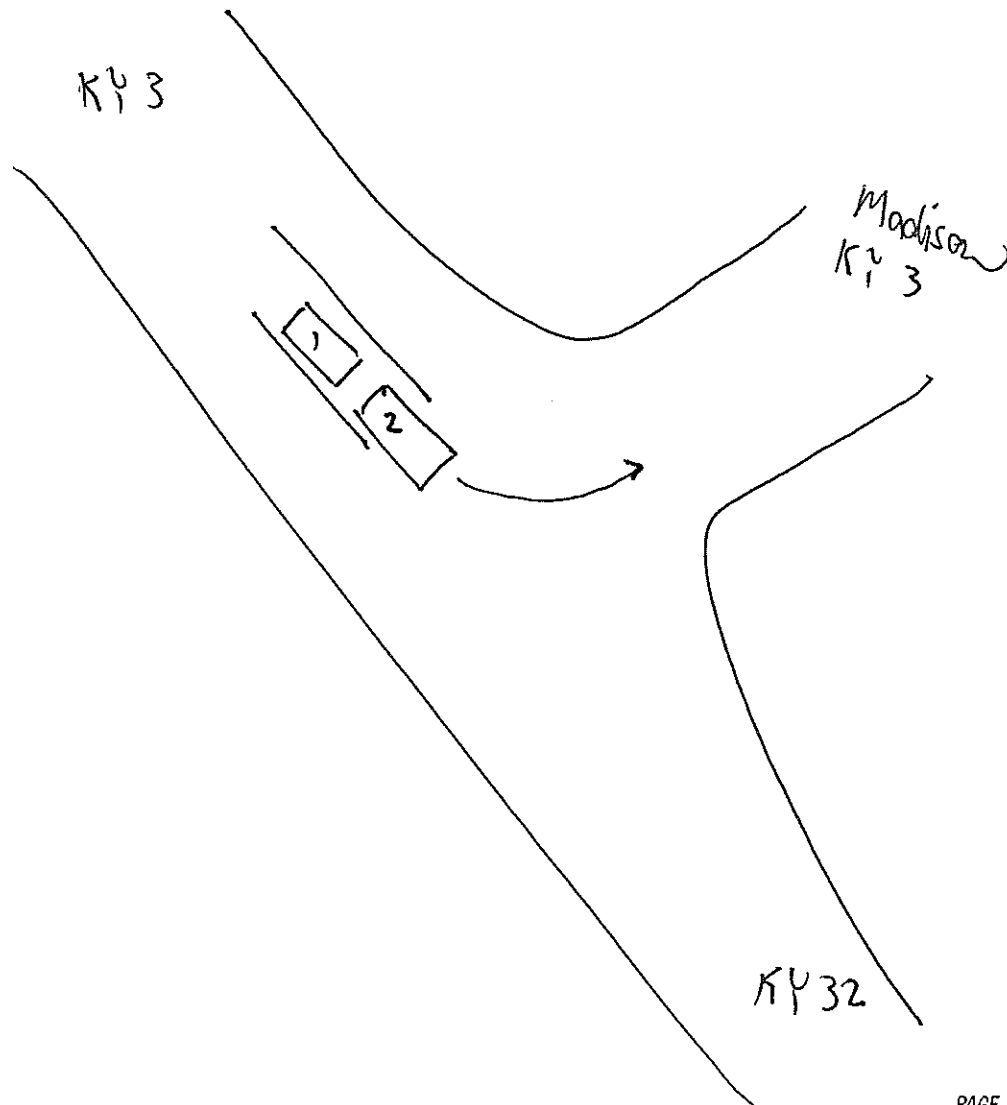

MASTER FILE # 70590019

INVESTIGATING AGENCY LOUISA POLICE DEPARTMENT

AGENCY ORI NUMBER 0640100

LOCAL CODE

On July 25 2008 at 18:41 I received a call from dispatcher Chris Cox of a motor vehicle accident without injury at the intersections of Madison Street/KY 3 and KY32 that is know as Hwy 2565. Upon arrival I saw both vehicles sitting in the roadway at the intersection approximately 3 feet apart and all drivers and passengers where in their vehicles. I asked Unit 1 Mrs. Barnett if she and her passengers where injured and she said no. I then asked her to produce her vehicle registration, driver's license and proof of insurance while I checked on Unit 2. When I asked Unit 2 Mrs. Holbrook if she was injured she said that her neck was sore but believed that she was ok and that she didn't need medical assistance at that time. She said that if it continued she would go to the hospital herself. As she gave me her for her information I asked what had happened. She told me that as she was driving east on Madison Street/KY3 and as she approached the intersections in the turn lane her light was red so she stopped. She then checked to see if any traffic was coming northward on Ky32 thru the traffic light. She also told me that she eased up to the intersections that she had to yield to an oncoming vehicle so she stopped and as she stopped Unit 1 struck her in the rear of her vehicle. I then went asked Unit 1 what had happened she told me that as she approached the intersections she seen Unit 2 easing up and begin to merge into traffic. She thought Unit 2 was continuing into traffic so she began to merge also. She didn't notice that Unit 2 had stopped again. She then struck Unit 2's vehicle in the rear with the front of her vehicle. I looked at both vehicles and was unable to see any damage or scuffs on either. As I returned to Unit 2's vehicle to give her information back I asked once more if she wanted medical attention. She again said no and that she would be fine. Both vehicles where still in operation and didn't need to be towed.

## KENTUCKY UNIFORM POLICE TRAFFIC COLLISION REPORT - NARRATIVE

KSP 74 Revised 1/2000

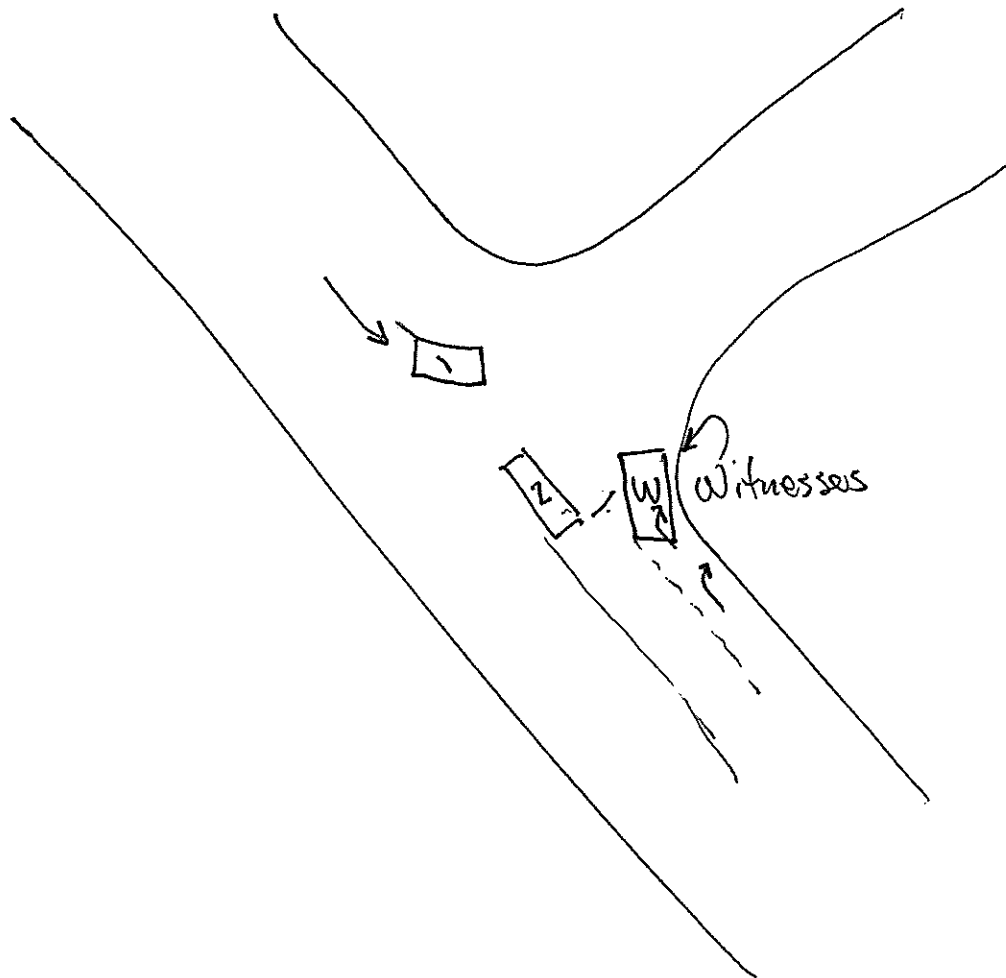

MASTER FILE # 70597001

INVESTIGATING AGENCY LOUISA POLICE DEPARTMENT

AGENCY ORI NUMBER 0640100

LOCAL CODE

On Tuesday August 12th 2008 at 12:06 I was notified by the Lawrence County 911 Center of a possible motor vehicle collision at the intersection of Ky 3 and Ky 2565. Upon arrival NetCare Ambulance and the Louisa Fire Department were administering first aid to subjects in Unit 2's vehicle, which had a busted windshield from passenger. Unit 1 was still setting in her vehicle when I asked her if she has hurt she advised no. Two females then approached me and advised that they seen what happened. Tina Perdue and Betty Evans both advised me that as they were traveling North on Ky 2565 and as they stopped to yield in the turn lane for Ky 3 South, that Unit 2 which was traveling North on Ky 2565, began to go thru the intersection of Ky 3. Unit 1 failed to yield on green light for them. Unit 1 told me that she did have a green light and that she thought she had the green turn arrow also, so she continued to make her left hand turn onto Ky 3 South when she struck Unit 2's vehicle. Unit 2 and passengers all stated that the were going thru the intersection when Unit 1 turned in front of them. The driver of Unit 2 advised that he applied his brake hard but still was unable to stop before he collided with Unit 1. Skid marks show that Unit 2 skidded approximately 10 feet before impact. NetCare Ambulance transported all passengers of Unit 2's vehicle to Three Rivers Medical Center for treatment. Driver of Unit 2 vehicle Harold G. Wheeler was complaining of neck and back pain. Front passenger Bonnie Gillespie had cuts to her face, when I asked her if she had her seat belt on at time of impact she said 'yes'. I then asked her how did she hit the windshield if she had her seatbelt on and she stated that maybe it wasn't working properly. Gayle Gibeck was the passenger setting behind the drivers seat, was also treated for possible back/neck injury. Mr. Wheeler driver of the vehicle was issued a citation (#1054768) for Operating a Motor vehicle on a suspended License (KRS 00403, 186.620) and was given a court date due to his possible injuries. Both vehicles were towed from the scene; Yates Wrecker Service towed Unit 1's vehicle, while Perry's Wrecker Service towed Unit 2's.

## KENTUCKY UNIFORM POLICE TRAFFIC COLLISION REPORT - NARRATIVE

KSP 74 Revised 1/2000

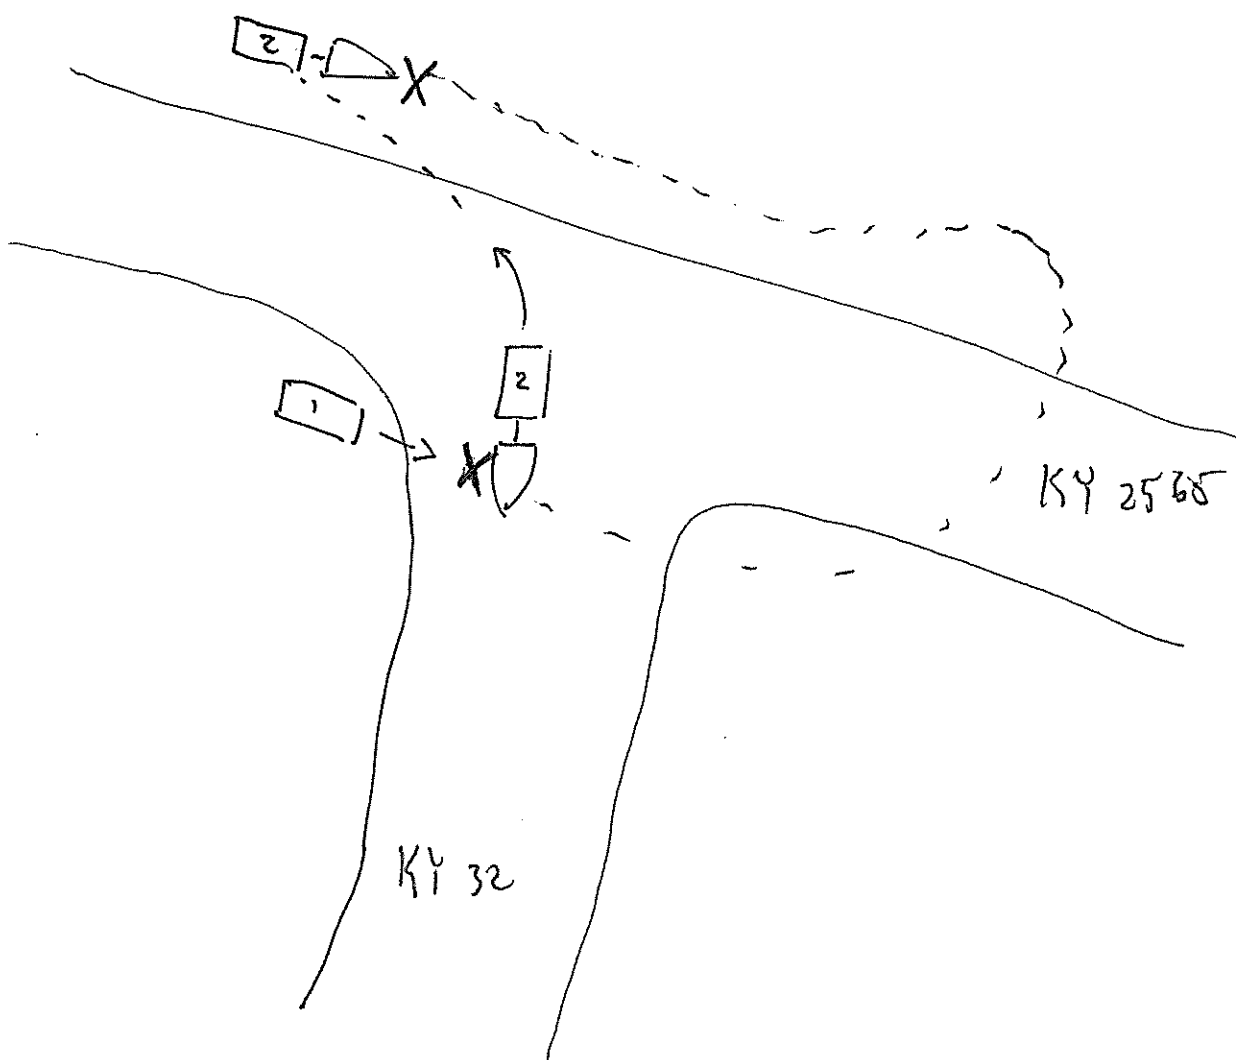

MASTER FILE # 70601922

INVESTIGATING AGENCY KY STATE POLICE, POST 14

AGENCY ORI NUMBER KSP1400

LOCAL CODE

Unit 2 was turning left onto KY2565 from KY32. Driver of unit 2 stated the traffic signal was green. Unit 2 was hauling a boat on a trailer. Upon entering the intersection, unit 1, traveling south bound on KY2565, entered the intersection and struck the left side of the trailer of unit 2. Driver of unit 1 stated she did not hit unit 2, she "just bumped him." Unit 2 pulled off the roadway onto the shoulder of KY2565. Unit 1 turned in the parking lot of Kentucky Fried Chicken and pulled in behind unit 2 to wait for law enforcement to arrive. When unit 1 pulled in behind unit 2, she struck the rear of the boat with her front bumper, causing damage to the boat. Neither unit had proof of insurance. The daughter of unit 1 arrived at the scene. She advised that the driver of unit 1 had not been taking her medication and probably should not be driving. The boat that was damaged in the secondary collision is a 1990 Tracker Targa 19. The registration number is OH030CT, and the HIN number is BUJ63862d797. The trailer that was damaged in the primary collision is a Tracker model. The trailer's registration number is Ohio RJ25ZJ.

## KENTUCKY UNIFORM POLICE TRAFFIC COLLISION REPORT - NARRATIVE

KSP 74 Revised 1/2000

MASTER FILE # 70613411

INVESTIGATING AGENCY LOUISA POLICE DEPARTMENT

AGENCY ORI NUMBER 0640100

LOCAL CODE

On Thursday September 25th 2008 at 16:42, I was notified by the Lawrence County 911 Center of a motor vehicle accident at the intersection of KY2565 and KY3. Upon arrival I noticed both drivers were out of their vehicles while the Louisa Fire Department was treating a female passenger in Unit 2's vehicle. Unit 1 advised me that while he was stopped for a red light at the intersection that Unit 2's vehicle struck him from behind. Unit 2 advised that as he was approaching Unit 2's stopped vehicle that his foot slipped off the brake, which caused him to hit Unit 2 in the rear. Passenger of Unit 2's vehicle was complaining of back injury and was transported to Three Rivers Medical Center for treatment.

KSP 74 Revised 1/2000

MASTER FILE # 70640106

INVESTIGATING AGENCY LOUISA POLICE DEPARTMENT

AGENCY ORI NUMBER 0640100

LOCAL CODE 16932

Unit 1 was traveling North bound on HWY 2565 in the turning lane for Madison Street. Unit 1 was slowing down upon approaching the intersection to make a right turn. Unit 1 began sliding sideways due to snow and ice on the roadway. Unit 2 was traveling behind Unit 1 in the same direction and steered to try to avoid Unit 1. Unit 2 began sliding and sideswiped Unit 1 making contact with the rear passenger side of Unit 1. Unit 2 sustained damage to the drivers side above the back tire. Unit 2 kept sliding off the side of the road striking a Yield sign, knocking the sign over causing damage to the passenger side front of Unit 2.

## KENTUCKY UNIFORM POLICE TRAFFIC COLLISION REPORT - NARRATIVE

KSP 74 Revised 1/2000

MASTER FILE # 70654655

INVESTIGATING AGENCY LOUISA POLICE DEPARTMENT

AGENCY ORI NUMBER 0640100

LOCAL CODE

On January 5th 2009 at 16:15, I was notified by the Lawrence County 911 Center of a two-vehicle collision at the intersections of KY 2565 and KY 3. Upon arrival I saw all parties involved still setting in their vehicles. I asked both units if anyone was hurt and all three subjects involved told me "no". Unit 2 said that as she was sitting at the intersection facing north, waiting for the red light to change, unit 1 came up from behind and hit the rear of her vehicle. No visible damage could be seen on unit 2. After further investigation, I found that unit 1 was fleeing from the scene of a crime. Investigation determined that unit 1 had stolen a purse from the Lawrence County Community Center. According to witness, Brenda McKinney (who had gotten behind the vehicle on KY 644), unit 1 left the scene at a high rate of speed. It was when unit 1 approached the intersection of North KY 2565 and KY 3 that they changed lanes from turning into the downtown area to the thru lane. After changing lanes unit 2 failed to stop in time before hitting unit 1's vehicle in the rear. Unit 1 was arrested for theft by unlawful taking.

# KENTUCKY UNIFORM POLICE TRAFFIC COLLISION REPORT - NARRATIVE

KSP 74 Revised 1/2000

MASTER FILE # 70673829

INVESTIGATING AGENCY LOUISA POLICE DEPARTMENT

AGENCY ORI NUMBER 0640100

LOCAL CODE 2590

Unit 2 was traveling Northbound through the green light. Unit 1 was making a left turn onto Madison Street. Unit 2 applied heavy braking but could not avoid striking Unit 1 on the rear passenger side bumper. Driver of unit 1 stated the vehicle in front of her had made a left turn and she followed, but did not see unit 2 coming.

# KENTUCKY UNIFORM POLICE TRAFFIC COLLISION REPORT - NARRATIVE

KSP 74 Revised 1/2000

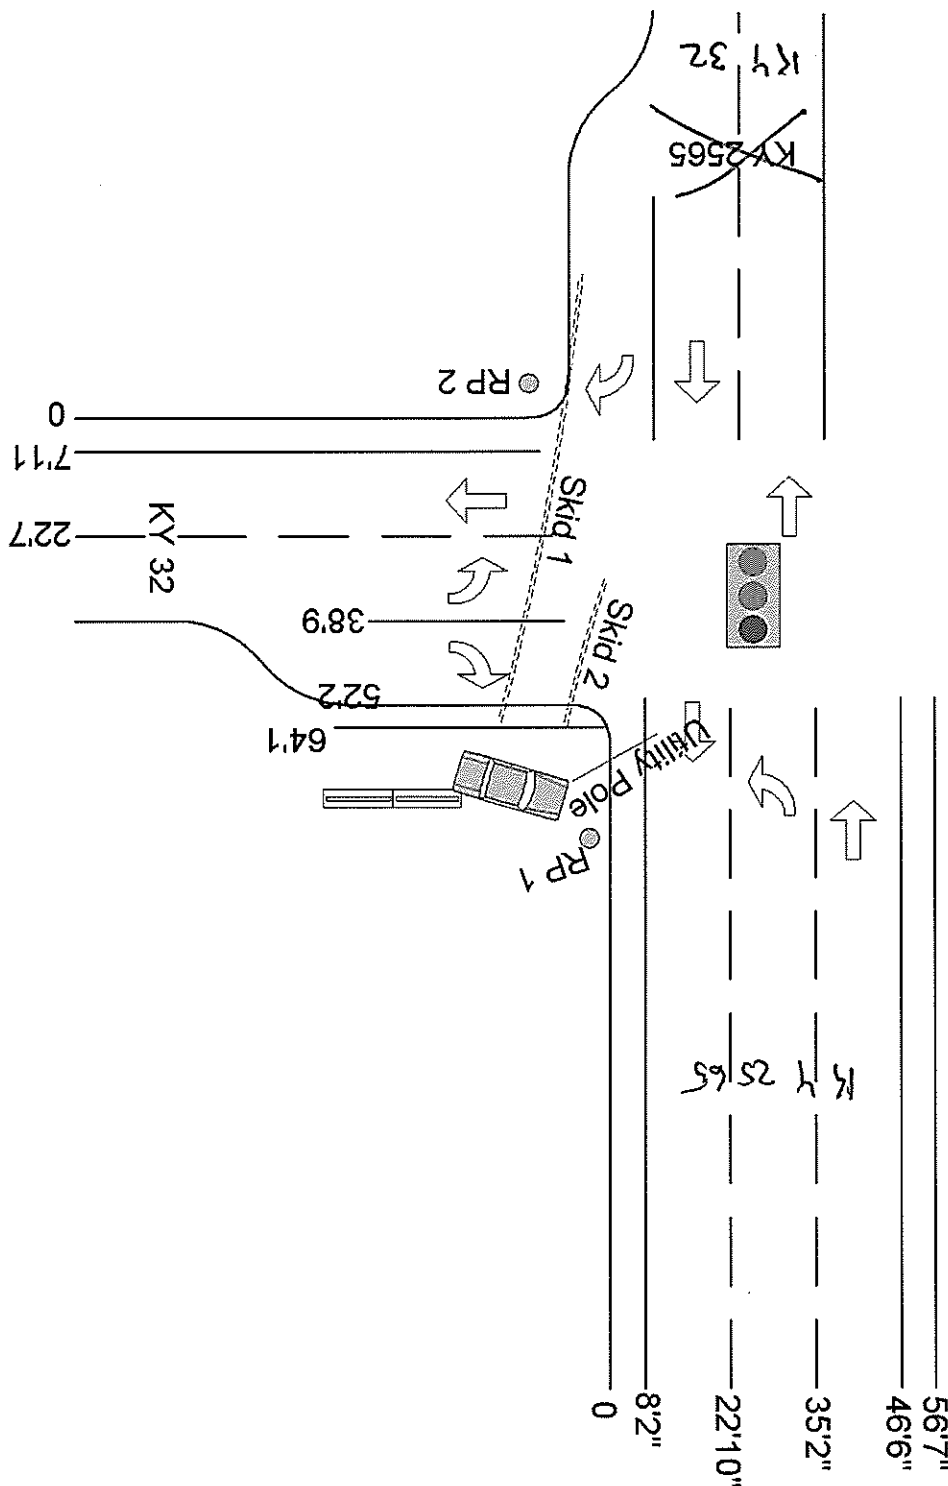

MASTER FILE # 70676202

INVESTIGATING AGENCY LOUISA POLICE DEPARTMENT

AGENCY ORI NUMBER 0640100

LOCAL CODE 02482

Unit 1 was traveling southbound on HWY 2565 at a high rate of speed. This officer was attempting to catch up to vehicle to conduct a traffic stop for running a red light. Unit 1 was driving erratically all over the road. When Unit 1 approached the intersection of HWY 2565 and HWY 32 unit 1 appeared to be trying to make a right hand turn to go onto HWY 32. Unit 1 continued on towards the South West corner of the intersection striking the traffic light support pole. The back end of Unit 1 spun around and came to a rest against cross ties surrounding the Marathon station sign. The traffic light pole fell into the roadway causing the traffic lights to fall also, blocking off HWY 2565 in both directions. The airbag deployed causing some minor injuries to drivers face. Driver had to be extricated by the Louisa Fire Department through the drivers side door. There were several cans of beer scattered around the vehicle along with some open beer cans spilled in the passenger side floor board. Driver was transported to Three Rivers Medical Center by Net Care Ambulance, where he was treated for minor injuries. Driver refused to take blood and urine test. He was very belligerent and would not cooperate with officers questioning.

Unit 2 was traveling north on KY 32 (HWY 2565) coming up on the intersection of KY 3 (Madison Street). Unit 1 was traveling south on KY 3 and was making a left turn onto Madison Street. Unit 2 struck unit 1 in the passenger side rear causing damage to the front passenger side of Unit. Witnesses state that Unit 2 had a green light and Unit 1 had a green light. The lane that Unit 1 was making the turn from is left turn yield to oncoming traffic on green lane.

## KENTUCKY UNIFORM POLICE TRAFFIC COLLISION REPORT - NARRATIVE

KSP 74 Revised 1/2000

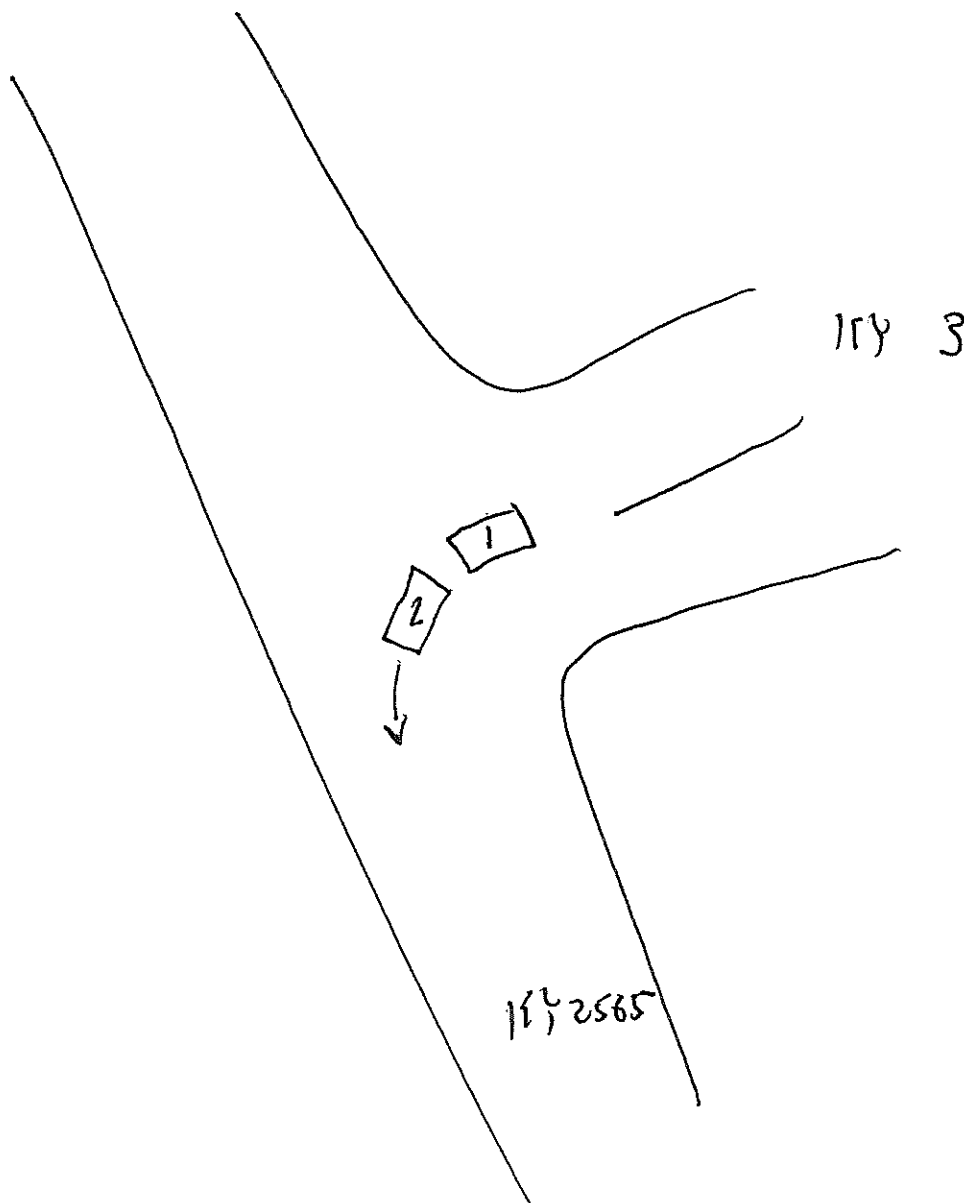

MASTER FILE # 70682961

INVESTIGATING AGENCY LOUISA POLICE DEPARTMENT

AGENCY ORI NUMBER 0640100

LOCAL CODE

On March 20th the Lawrence County 911 Center dispatched me to a motor vehicle collision at the intersection of KY 3 and KY 2565. Unit 1 was still setting in her vehicle when I arrived. Both subjects in Unit 2 vehicle were standing outside of their vehicle. Unit 1 told me that she and Unit 2 were waiting for traffic to clear to merge onto KY 2565. Once traffic was cleared Unit 1 began to proceed onto KY 2565 and then stopped again when they noticed another oncoming vehicle. Unit 1 said that she was unable to stop in time and bumped the rear of Unit 2's vehicle. When I spoke with Unit 2 and asked what happened, they both agreed with what Unit 1 had stated. Neither driver nor passenger had any complaints of injuries. After checking both vehicles I was unable to locate any damage. Unit 2 requested an accident report be done in case they needed it later.

## KENTUCKY UNIFORM POLICE TRAFFIC COLLISION REPORT - NARRATIVE

KSP 74 Revised 1/2000

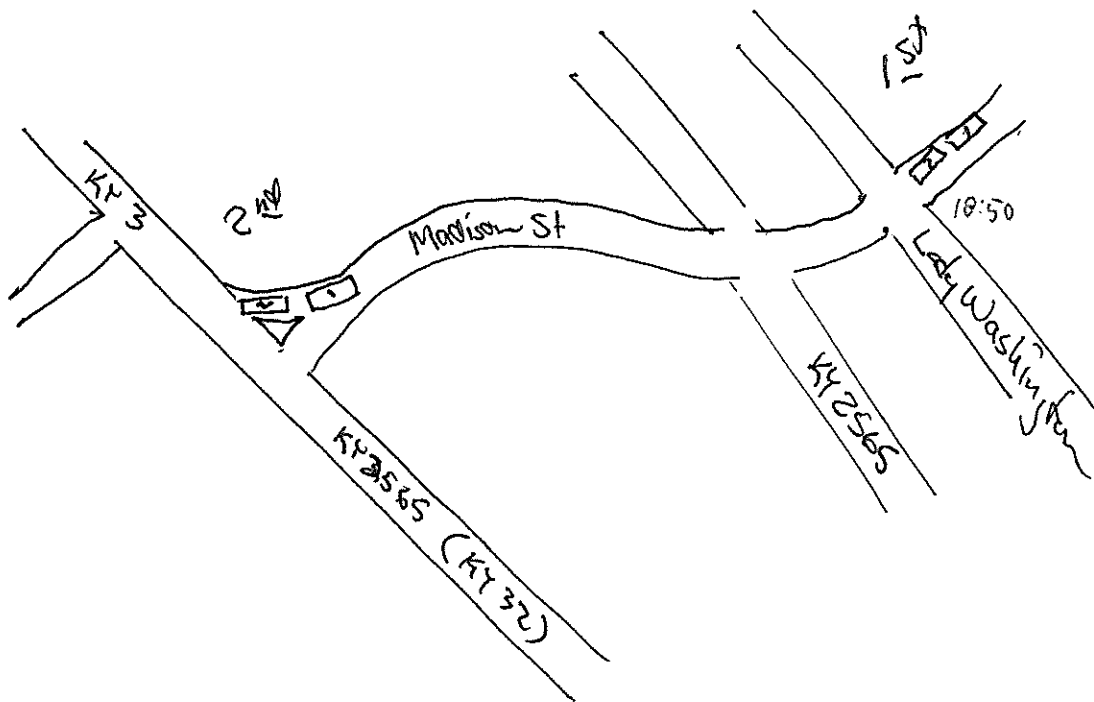

MASTER FILE # 70686544

INVESTIGATING AGENCY LOUISA POLICE DEPARTMENT

AGENCY ORI NUMBER 0640100

LOCAL CODE

On January 22nd 2009 at 18:50 I was contacted by the Lawrence County 911 Center in reference to a two-vehicle motor vehicle collision at the intersection of Madison Street and Lady Washington Street. Before I could arrive, my dispatcher told me that one of the vehicles had left the scene. The dispatcher also said that the vehicle was a small green car driven by a female. As I was turning onto Madison Street dispatch was giving me another two-vehicle collision at the intersection of Madison Street and KY HWY 2565, which is about four blocks from the first collision. As I arrived at the first collision, I spoke with the driver Terry Wellman, who told me he was not hurt and gave me a description of the vehicle that had hit him. He said that when he stopped for the traffic light a vehicle had struck him in the rear of his vehicle. He also went on to say that as he went to BP gas station across the street to call 911 the female driving fled the scene. Louisa Fire Chief Eddie Preston had gotten to the second collision and informed me that the female in the green Neon was trying to leave the scene there. I then had the victim of the first collision to move his vehicle over to the side of Lady Washington Street and wait for Deputy Brent Pack to come gather his information. I then proceeded to the second collision. I spoke with the driver of the pickup truck David Griffith, and he told me that while he was waiting on the vehicle in front of him to begin to move after the traffic light changed, that the female in the green Neon struck his vehicle in the rear side. When he got out to check on her, she began to pull forward and backwards in an attempt to leave. After investigating further, it was determined that the female driver, unit 1, had been drinking due to a strong odor of beer coming from her. After EMS checked the subject for any serious injuries, I began to administer field sobriety test. Subject failed all test due to being unable to follow instructions for any of the tests. Subject was given the PBT, which she failed. After given the PBT I placed her under arrest. She then began to complain of her eye hurting so I asked her if she wanted to go to the hospital to be checked out. She told me "yes". The staff from Netcare Ambulance service transported unit 1 to Three Rivers Medical Center to be treated. I then finished gathering information at the scene and then headed to the hospital. At the hospital I read the subject the implied consent warning and she gave consent to take a blood sample. It has been sent to KSP Lab in Ashland Kentucky. Subject was treated and released, then was transported to the Big Sandy Regional Jail.

## KENTUCKY UNIFORM POLICE TRAFFIC COLLISION REPORT - NARRATIVE

KSP 74 Revised 1/2000

MASTER FILE # 70713840

INVESTIGATING AGENCY LOUISA POLICE DEPARTMENT

AGENCY ORI NUMBER 0640100

LOCAL CODE

I received a call from Lawrence county 911 that there was a collision at the KY 3 and KY 2565 intersection on Wednesday 5/6/09 at approximately 1718. Upon arrival Unit #2 driven by John Artrip was sitting in the right southbound lane of KY 2565 facing south. Unit #1 was off the road of the north bound lane facing south. The drivers were standing in front of unit 2 talking. I asked both drivers for their license, registration, and proof of insurance. I then asked the drivers what happened. John Artrip said that both units were turning left onto KY 2565 from KY 3. Unit 1 was in front of unit 2 turning left at the red light. When unit 1 was making a left turn onto KY 2565 the driver lost control of the vehicle and spun counter clockwise until it was facing the opposite direction. It then caught traction and drove head on into unit 2. Perry Chaffin the driver of unit 1 also said that he was turning left onto KY 2565 when he lost control of his vehicle, spun around and collided with unit 2. Both units were disabled, the front bumpers were touching the tires. Perry's wrecker service was called to the scene. The wrecker did not tow either vehicle, it did help the drivers move the bumpers where the vehicles could be driven. Sergeant Fugitt took photographs of the damage the vehicles suffered from the collision. No citations were issued, both drivers claimed to have their seat belts on at the time of the collision. John Artrip was complaining of shoulder pain from his seat belt, he declined medical treatment when it was offered to him but he said if it hurt more that he would seek medical attention on his own.

KSP 74 Revised 1/2000

MASTER FILE # 70715459

INVESTIGATING AGENCY LOUISA POLICE DEPARTMENT

AGENCY ORI NUMBER 0640100

LOCAL CODE 7627

Unit 1 was traveling North on HWY 2565. Driver stated that 3 deer crossed the road in front of him and he slowed down. Then a 4th deer hit on the drivers side by the front tire and flipped up coming through the windshield. The vehicle sustained damage to the front quarter panel, drivers side mirror, windshield and roof. The driver complained of pain in his right arm. EMS transported him to Three Rivers Medical Center for a possible broken arm. The passenger did not complain of any injuries and signed a refusal for EMS care. The deer had been drug from the center of the roadway to the side of the road by a passing motorist.

## KENTUCKY UNIFORM POLICE TRAFFIC COLLISION REPORT - NARRATIVE

KSP 74 Revised 1/2000

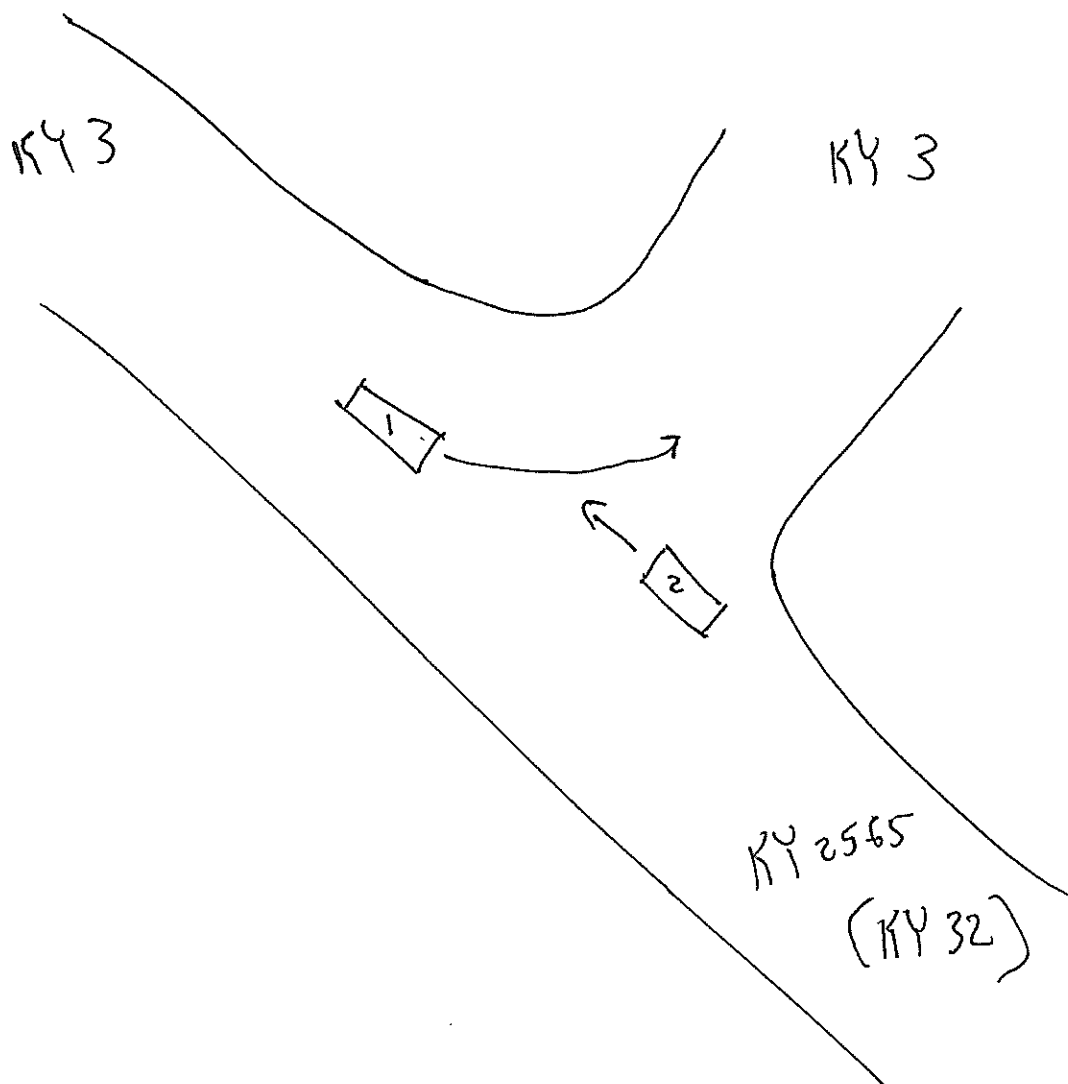

MASTER FILE # 70744443

INVESTIGATING AGENCY LOUISA POLICE DEPARTMENT

AGENCY ORI NUMBER 0640100

LOCAL CODE

On August 20th 2009 I was dispatched to a two vehicle collision at the intersection of KY 3 and KY 2565. Upon arrival I saw the driver from Unit 2 standing outside of his vehicle, while the driver from Unit 1 was sitting in the drivers seat of her vehicle. Both units advised that they were not injured, but since Unit 1 was a juvenile her parents were contacted. I then asked Unit 2, lyad Asaad, what had happened. He stated to me that as he was traveling northbound on KY 2565 he came upon the intersection and began to proceed through when Unit 1 turned in front of him. He also stated that he was sure that he had a green light. I then went over and asked Unit 1 what had happened. She stated that she was following two other vehicles, which had made a left turn in front of her. As she was making her turn, Unit 2 came through the intersection and struck the front of her vehicle. She went on to say that she was sure that she had the green arrow to turn. I then spoke with Brian Ratliff, who called 911, and asked him if he had seen anything or if he noticed which light was green. He told me that he had just drove up to the intersection as it happened and he didn't think about checking the lights. He did tell me that another subject, Carlos Hayes, was also at the intersection but he isn't sure what, if anything he saw. I was unable to locate Mr. Hayes. Unit 1's vehicle was towed by Perry's Wrecker Service while Unit 2's was towed by Edsels Wrecker Service. Both subjects signed refusals to be transported by NetCare Ambulance.

Unit 2 was stopped at the red light at Hwy 2565 and Hwy 32 intersection and started to pull out when the light changed green with a vehicle in front. That vehicle stopped or slow and Unit 2 stopped. Unit 1 didn't not see Unit 2 stop in time for her to stop and struck Unit 2 in the rear. There did not appear to be any damage to either Unit.

VIII. APPENDIX B

NINE ELEMENTS of NEPA

## NEPA and Transportation Decisionmaking

The Council on Environmental Quality (CEQ) regulations (40 CFR §§ 1500-1508) addresses the basic decisionmaking framework and action forcing provisions established in the National Environmental Policy Act (NEPA). The principles or essential elements of NEPA decisionmaking include:

- Assessment of the social, economic, and environmental impacts of a proposed action or project
- Analysis of a range of reasonable alternatives to the proposed project, based on the applicants defined purpose and need for the project
- Consideration of appropriate impact mitigation: avoidance, minimization and compensation
- Interagency participation: coordination and consultation
- Public involvement including opportunities to participate and comment
- Documentation and disclosure.

FHWA adopted the policy of managing the NEPA project development and decisionmaking process as an "umbrella," under which all applicable environmental laws, executive orders, and regulations are considered and addressed prior to the final project decision and document approval. Conclusion of the NEPA process results in a decision that addresses multiple concerns and requirements. The FHWA NEPA process allows transportation officials to make project decisions that balance engineering and transportation needs with social, economic, and natural environmental factors. During the process, a wide range of partners including the public, businesses, interest groups, and agencies at all levels of government, provide input into project and environmental decisions.

## NEPA and Transportation Decisionmaking

### Elements of Purpose and Need

The purpose and need of a project is essential in establishing a basis for the development of the range of reasonable alternatives required in an EIS and assists with the identification and eventual selection of a preferred alternative.

The following items may be listed and described in the purpose and need statement for a proposed action. These are by no means all-inclusive or applicable in every situation. They are intended as a guide.

- *Project Status* — Briefly describe the action's history, including measures taken to date, other agencies and governmental units involved, action spending, schedules, etc.
- *Capacity* — Discuss the capacity of the present facility and its ability to meet present and projected traffic demands. Discuss what capacity and levels of service for existing and proposed facilities are needed.
- *System Linkage* — Discuss if the proposed action is a "connecting link" and how it fits into the transportation system.
- *Transportation Demand* — Discuss the action's relationship to any statewide plan or adopted urban transportation plan. In addition, explain any related traffic forecasts that are substantially different from those estimates of the 23 U.S.C. 134 (Section 134) planning process.
- *Legislation* — Explain if there is a Federal, state, or local governmental mandate for the action.
- *Social Demands or Economic Development* — Describe how the action will foster new employment and benefit schools, land use plans, recreation facilities, etc. In addition, describe projected economic development/land use changes that indicate the need to improve or add to the highway capacity.
- *Modal Interrelationships* — Explain how the proposed action will interface with and serve to complement airports, rail and port facilities, mass transit services, etc.
- *Safety* — Explain if the proposed action is necessary to correct an existing or potential safety hazard. In addition, explain if the existing accident rate is excessively high and why, and how the proposed action will improve safety.
- *Roadway Deficiencies* — Explain if and how the proposed action is necessary to correct existing roadway deficiencies (e.g., substandard geometrics, load limits on structures, inadequate cross-section, high maintenance costs, etc.) In addition, explain how the proposed action will correct these deficiencies.

IX. APPENDIX C

## MEETING MINUTES

12-8405

Project Team Meeting Minutes

July 6, 2010

A project team meeting was held on July 6, 2010 in the Pikeville Highway District Office to discuss the Pre-Design Scoping Study for Item No. 12-8405. The following people were in attendance:

After introductions were made, Scott Thomson described the project as being sponsored by Representative Rocky Adkins to improve KY 32 in Louisa. There is currently \$7.5 million of funding in the Highway Plan. Kevin Damron stated that he had spoken to Representative Adkins and that the current direction of the study is consistent with Representative Adkins' vision for the project. John Michael Johnson noted that for Item No. 12-284, which ties into the project, right-of-way is approximately 50% complete and the construction contract should be let in 2011.

Scott Thomson then led the project team through a presentation highlighting issues and concerns in the project area. During the presentation, the following items were noted:

Observations and Alternatives at the KY 32/KY 3 Intersection:

- Realign Town Hill Road to make a single 4-leg intersection. This could involve a 70-foot cut, but would impact communications towers. The towers could be avoided but this would require a larger cut.
- Replace the signal head for the left turn lane from KY 32 with one that includes a flashing yellow left-turn arrow.
- A resurfacing project is scheduled for KY 32 from KFC to KY 3 which would provide an opportunity to change the through lane to a TWLTL.
- Converted the Town Hill Road intersection to a Right-In/Right-Out intersection.
- Re-route Town Hill Road to the shopping center entrance. Currently about 90% of drivers turning left onto KY 32 go through the shopping center.
- Accidents started to occur when the signal was changed to Protected-Permissive nearly three years ago, but this change has reduced traffic back-ups at the intersection.
- Add right turn arrows for the eastbound right lane on KY 32.
- The District Office has considered turning Town Hill Road into a state route, and a funding source is available to buy Right-of-Way through the shopping center parking lot.

Observations and Alternatives on KY 32, Section 2:

- There are rock falls at the KY 3 intersection.
- Change signage so that the left lane ends just after KY 2565.
- With re-surfacing, add cross-hatching so that the left lane ends before KY 2565, then add left turn lane at KY 2565.

- Does it make sense to eliminate 1/3 of the passing lane just because there were two accidents? The passing lane probably isn't needed anymore since much of the traffic that previously used the road has been diverted onto US 23.

#### Observations and Alternatives at the KY 2565 South Intersection:

- A right turn lane was added on KY 32 as an HES project approximately ten years ago; David Moses would have more information on this project.
- The culvert just west of KY 2565 needs to be replaced.

#### Observations and Alternatives on KY 32, Section 1:

- Could re-route KY 32 onto Wal-Mart construction road, which would intersect KY 2565 approximately 3/8 mile south of the current intersection. Would have to build a bridge to connect to the construction road, or go behind the BP gas station.
- There are drainage problems near Town Hill Road which could possibly be attributed to run-off from Wal-Mart.
- Realign Town Hill Road to intersect KY 32 at closer to a ninety-degree angle; move intersection to the east side of the wetland.
- Identify and get phone numbers for all utility companies in the project area.

Purpose and Need Statement: Change "provide" to "enhance." KY 32 is also a residential development corridor.

#### Next Steps:

- Change the striping on Section 2 during the upcoming resurfacing project. Possibly add a TWLTL or a dedicated left turn lane at KFC. This should address the issues on this section.
- Kevin Damron will meet with Rocky Adkins to discuss changing the southern Town Hill Road intersection to Right-In/Right-Out, or adding a TWLTL.
- Narrow the focus of the KY 32 relocation to the Wal-Mart construction road; could use a Categorical Exclusion for the environmental document. Address drainage issues near the north Town Hill Road intersection.
- Mary and Dewey will prepare cost estimates; Scott should provide them with a map showing alternatives.
- For Section 1, if the existing alignment was followed, 11' lanes and 3-4' shoulders would be desirable.
- John Michael will look into providing lighting at the proposed ramp from US 23 onto KY 32.
